

Health & Safety Risk Assessment (Agriculture)		RA Ref No.	Farm 1	DATE	July 2022
---	--	------------	--------	------	-----------

TASK (Operation/Process)	Movement of Agricultural Equipment				
Location	Movement of pedestrians on a private road				
Operational Hours	Access to <i>Phoenix Meadows, Bishopswood</i>				
Risk Assessor	As required by the Landowner				
	NAME:	Colin Gears – Managing Director BSc, CMIOSH, MIIRSM, MIHE, MIEMA, OSHCR Coval Health & Safety Services Limited			

☐ SSMTS ☐ SSSTS ☐ NEBOSH ☐ IOSH Managing Safely

	Likelihood	Severity			
		Trivial	Minor Injury	> 3 Day Injury	Major Injury
Highly Unlikely	1	2	3	4	5
Unlikely	2	4	6	8	10
Likely	3	6	9	12	15
Highly Likely	4	8	12	16	20
Extremely Likely	5	10	15	20	25

What are the hazards?	Who could be harmed?	How could they be harmed?	Initial Risk Rating IRR (LxS)			Control Measures required to reduce risk to an acceptable level	Residual Risk Rating RRR (LxS)		
			L	S	IRR		L	S	RRR
Moving Heavy Agricultural Equipment	Public	Impact from moving equipment on the car park access road to the field access.	3	5	15	- Equipment to use access road at times when public presence is low. - The public should be alerted to moving agricultural equipment by notices at the car parks. - Operators to be competent to use the equipment on the highway and private road access. - Provide at least 72 hour's notice to the canoe launch operator at times where high numbers of the public will be using the carpark/village hall. - Defined as weekends and bank holidays, April to September inclusive. - On high activity notice and where access to the field is absolutely necessary, a banksman wearing Hi-Viz will guide the machine from the road to the access gate. - Where members of the public are on the access road, stop and wait for them to clear before moving forward. - No reversing without a banksman.	1	5	5

Health & Safety Risk Assessment (Agriculture)		RA Ref No.	Farm 1	DATE	July 2022
---	--	------------	--------	------	-----------

						Vehicle speed not to exceed 5 mph.				
Slip Trip Fall on the level	Public	Losing footing on unfinished surface on the field access ramp.	3	3	9	Access from the car park access road onto the field access ramp must be prohibited to the public. Signs showing no unauthorised access to be placed at the top of the access ramp.	1	2	3	
Noise	Public	Hearing damage if standing near to equipment whilst it is stationary.	1	2	2	Operator to stop equipment and politely advise anybody in proximity to move away from the equipment	1	1	1	
Fumes	Public	Inhalation of exhaust fumes from equipment	2	1	2	Operator to stop equipment and politely advise anybody in proximity to move away from the equipment	1	1	1	

Confirmed that all identified Control Measures are in place:

Site Operational Manager:	Signed:
---------------------------	---------

The residual risk calculation is based on compliance from the public for whom there is no duty under H&S law. The rating from this assessment identifies that under the controls where fully implemented, the risks presented are deemed to be acceptable.

Notes:

- Unrestricted access to the field by the landowner is required as dictated by the crops/seasons.
- Accommodation to the functioning of the Village Hall and the public attending the venue is of paramount importance and communication between the Landowner and the Village Hall must be based on each other's needs. To this end, 72 hours' notice from both to each other on dates where activities dictate stringent controls as described above to be implemented will serve to prevent accidents and incidents occurring.
